## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

**The Board of Directors**  
**Dubai Islamic Insurance & Reinsurance Co. (Aman) (PSC)**  
**Dubai**  
**United Arab Emirates**

### *Introduction*

We have reviewed the accompanying condensed consolidated statement of financial position of **Dubai Islamic Insurance & Reinsurance Co. (Aman) (PSC)** (the "Company") and its **Subsidiaries** (collectively the "Group") as at 30 September 2017 and the related condensed consolidated income statement, comprehensive income, changes in equity and cash flows for the period from 1 January 2017 to 30 September 2017. Management of the Group is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting' ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

### *Scope of review*

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with IAS 34.

### *Emphasis of matter*

We draw attention to Note 21 to the interim financial information which explains that the Group entered into an agreement with an ex-management key member on 9 July 2013 for the payment for and/or transfer of certain assets and investments that were held by him on trust and for the benefit of the Group. As of the date of this report, assets with a total carrying value of AED 11.9 million which are still in his name or owing from him, have not been yet transferred or paid to the Group. The Group is pursuing litigation in regards to the transfer of these assets which involves a degree of uncertainty as to the full and timely recoverability of these assets. The Board of Directors remains confident with respect to the realization as a minimum of the carrying value of assets and therefore no adjustments to the carrying value of the assets are required.

Our conclusion is not modified in respect of the above matter.

**2. Application of new and revised International Financial Reporting Standards (“IFRS”)**

**2.1 New and revised IFRS applied with no material effect on the condensed consolidated financial statements**

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2017, have been adopted in these condensed consolidated financial statements. The application of these new and revised IFRSs has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

- Amendments to IAS 12 *Income Taxes* relating to the recognition of deferred tax assets for unrealised losses
- Amendments to IAS 7 *Statement of Cash Flows* to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities
- Annual Improvements to IFRS Standards 2014 - 2016 Cycle - Amendments to IFRS 12 *Disclosure of Interests in Other Entities*.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**2. Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)**

**2.2 New and revised IFRS in issue but not yet effective and not early adopted**

The Group has not yet early applied the following new standards, amendments and interpretations that have been issued but are not yet effective:

<b><u>New and revised IFRS</u></b>	<b><u>Effective for annual periods beginning on or after</u></b>
Annual Improvements to IFRS Standards 2014 - 2016 Cycle amending IFRS 1 <i>First-time Adoption of International Financial Reporting Standards</i> and IAS 28 <i>Investments in Associates and Joint Ventures</i> (2015).	1 January 2018
Amendments to IFRS 2 <i>Share Based Payment</i> regarding classification and measurement of share based payment transactions.	1 January 2018
Amendments to IFRS 4 <i>Insurance Contracts</i> : Relating to the different effective dates of IFRS 9 <i>Financial Instruments</i> and the forthcoming new insurance contracts standard.	1 January 2018
Finalised version of IFRS 9 [IFRS 9 <i>Financial Instruments</i> (2014)] was issued in July 2014 incorporating requirements for impairment, general hedge accounting and derecognition. This amends classification and measurement requirement of financial assets and introduces new expected loss impairment model.	1 January 2018
<ul style="list-style-type: none"> <li>• <b>Impairment:</b> The 2014 version of IFRS 9 introduces an ‘expected credit loss’ model for the measurement of the impairment of financial assets, so it is no longer necessary for a credit event to have occurred before a credit loss is recognized.</li> <li>• <b>Hedge accounting:</b> Introduces a new hedge accounting model that is designed to be more closely aligned with how entities undertake risk management activities when hedging financial and non-financial risk exposures.</li> <li>• <b>Derecognition:</b> The requirements for the derecognition of financial assets and liabilities are carried forward from IAS 39.</li> </ul>	

A new measurement category of fair value through other comprehensive income (FVTOCI) will apply for debt instruments held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets.

A new impairment model based on expected credit losses will apply to debt instruments measured at amortised costs or FVTOCI, lease receivables, contract assets and certain written loan commitments and financial guarantee contract.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**2. Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)**

**2.2 New and revised IFRS in issue but not yet effective and not early adopted (continued)**

<b><u>New and revised IFRS</u></b>	<b><u>Effective for annual periods beginning on or after</u></b>
IFRIC 22 <i>Foreign Currency Transactions and Advance Consideration</i>	1 January 2018
The interpretation addresses foreign currency transactions or parts of transactions where:	
<ul style="list-style-type: none"> <li>• there is consideration that is denominated or priced in a foreign currency;</li> <li>• the entity recognises a prepayment asset or a deferred income liability in respect of that consideration, in advance of the recognition of the related asset, expense or income; and</li> <li>• the prepayment asset or deferred income liability is non-monetary.</li> </ul>	
IFRS 15 <i>Revenue from Contracts with Customers</i> : IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.	1 January 2018
Amendments to IAS 40 <i>Investment Property</i> : Amends paragraph 57 to state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management’s intentions for the use of a property by itself does not constitute evidence of a change in use. The paragraph has been amended to state that the list of examples therein is non-exhaustive.	1 January 2018
IFRS 16 <i>Leases</i> provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.	1 January 2019
IFRS 17 <i>Insurance Contracts</i> requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 <i>Insurance Contracts</i> as of 1 January 2021.	1 January 2021
Amendments to IFRS 10 <i>Consolidated Financial Statements</i> and IAS 28 <i>Investments in Associates and Joint Ventures</i> (2011) relating to the treatment of the sale or contribution of assets from an investor to its associate or joint venture.	Effective date deferred indefinitely

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**2. Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)**

**2.2 New and revised IFRS in issue but not yet effective and not early adopted (continued)**

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group’s condensed consolidated financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments, except for IFRS 9 and IFRS 17, may have no material impact on the condensed consolidated financial statements of the Group in the period of initial application.

The application of IFRS 9 and IFRS 17 may have significant impact on amounts reported and disclosures made in the Group’s condensed consolidated financial statements. However, it is not practicable to provide a reasonable estimate of effects of the application of these standards as the Group is in the process of performing a detailed review.

**3. Summary of significant accounting policies**

**Basis of preparation**

The condensed consolidated financial statements of the Group is prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, issued by the International Accounting Standard Board and also complies with the applicable requirements of the laws in the U.A.E.

The condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are carried at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The Group presents its condensed consolidated statement of financial position broadly in order of liquidity.

The Group is in the process of implementing the related requirements to comply fully with the Financial Regulations and Circular No. (4) and (9) of 2016 concerning the report requirements for insurance companies operating in the UAE. This mainly includes preparation of the financial statements and disclosures based on Appendix (1) of the Financial Regulations.

The accounting policies applied in the preparation of the condensed consolidated financial statements are consistent with those applied in the preparation of the audited annual consolidated financial statements for the year ended 31 December 2016.

The condensed consolidated financial statements do not include all the information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's consolidated financial statements as at 31 December 2016. In addition, results for the nine months period ended 30 September 2017 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2017.

As required by the Securities and Commodities Authority (“SCA”) notification dated 12 October 2008, accounting policies related to investment properties, property and equipment and financial assets have been disclosed in the condensed consolidated financial statement.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**3. Summary of significant accounting policies (continued)**

**Basis of preparation (continued)**

*Significant judgments and key sources of estimation uncertainty*

The preparation of condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those that were applied to the consolidated financial statements as at and for the year ended 31 December 2016.

*Financial risk management*

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2016.

**Basis of consolidation**

These condensed consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. Control is achieved where the Company has the power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns.

The condensed consolidated financial statements comprise the financial statements of the Company and of the subsidiaries as disclosed in Note 1 to these condensed consolidated financial statements. The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies.

All significant inter-group balances, income and expense items are eliminated on consolidation.

**Financial instruments**

*Financial assets*

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

*Classification of financial assets*

For the purposes of classifying financial assets, an instrument is an 'equity instrument' if it is a non-derivative and meets the definition of 'equity' for the issuer except for certain non-derivative puttable instruments presented as equity by the issuer. All other non-derivative financial assets are 'debt instruments'.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**3. Summary of significant accounting policies (continued)**

**Financial instruments (continued)**

***Financial assets (continued)***

*Classification of financial assets (continued)*

Debt instruments, including receivables related to Takaful contracts, are measured at amortised cost if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

*Amortised cost and effective profit method*

The effective profit method is a method of calculating the amortised cost of a debt instrument and of allocating profit income over the relevant period. The effective profit rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective profit rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective profit basis for debt instruments (other than those financial assets designated as FVTPL) are measured subsequently at amortised cost. Profit income is recognised in the condensed consolidated income statement.

*Cash and cash equivalents*

Cash and cash equivalents include cash on hand, in banks and deposits in banks with original maturity not more than three months from the date of placement.

*Takaful, Retakaful and other receivables*

Takaful, Retakaful and other receivables that have fixed or determinable payments are measured at amortised cost using the effective profit rate method, less any impairment.

*Financial assets at fair value through other comprehensive income (FVTOCI)*

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**3. Summary of significant accounting policies (continued)**

**Financial instruments (continued)**

***Financial assets (continued)***

***Financial assets at fair value through other comprehensive income (FVTOCI) (continued)***

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investments revaluation reserve. Where the asset is disposed of, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not transferred to consolidated income statement, but is reclassified to retained earnings.

Dividends on these investments in equity instruments are recognised in the consolidated income statement when the Group's right to receive the dividends is established in accordance with IAS 18 Revenue, unless the dividends clearly represent a recovery of part of the cost of the investment.

***Financial assets at fair value through profit or loss (FVTPL)***

Investments in equity instruments are classified as at FVTPL, unless the Group designates an investment that is not held for trading as at fair value through other comprehensive income (FVTOCI) on initial recognition (as described above).

Debt instruments that do not meet the amortised cost criteria (as described above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL. A debt instrument may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Debt instruments are reclassified from amortised cost to FVTPL when the business model is changed such that the amortised cost criteria are no longer met. Reclassification of debt instruments that are designated as at FVTPL on initial recognition is not allowed.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the consolidated income statement. The net gain or loss recognised in the consolidated income statement is included in the 'net investment income' line item in the consolidated income statement. Fair value is determined in the manner described in Note 20 to the consolidated financial statements.

Profit income on debt instruments as at FVTPL is included in the net gain or loss described above and is included in the 'net investment income' line item.

Dividend income on investments in equity instruments at FVTPL is recognised in the consolidated income statement when the Group's right to receive the dividends is established in accordance with IAS 18 Revenue and is included in the net gain or loss described above.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**3. Significant accounting policies (continued)**

**Financial instruments (continued)**

***Financial assets (continued)***

***Foreign exchange gains and losses***

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore,

- for financial assets that are classified as at FVTPL, the foreign exchange component is recognised in the consolidated income statement; and
- for financial assets that are designated as at FVTOCI, any foreign exchange component is recognised in other comprehensive income.

For foreign currency denominated debt instruments measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the financial assets and are recognised in the consolidated income statement.

***Impairment of financial assets***

Financial assets that are measured at amortised cost are assessed for impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the asset have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in profit or principal payments; or
- the disappearance of an active market for that financial asset because of financial difficulties.

The amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows reflecting the amount of collateral and guarantee, discounted at the financial asset's original effective profit rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets. Changes in the carrying amount of the allowance account are recognised in the consolidated income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the consolidated income statement to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**3. Significant accounting policies (continued)**

**Financial instruments (continued)**

***Financial assets (continued)***

***De-recognition of financial assets***

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained profit in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised financing for the proceeds received.

On de-recognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the consolidated income statement.

On de-recognition of a financial asset that is classified as FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to the consolidated income statement, but is reclassified to retained earnings.

**Furniture and equipment**

Furniture and equipment are carried at cost less accumulated depreciation and any accumulated impairment loss.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the consolidated income statement when incurred.

Depreciation is charged so as to write off the cost, over their estimated useful lives, using the straight-line method, as follows:

Furniture and fixtures	4 years
Office equipment	4 years
Motor vehicles	4 years

The gain or loss arising on the disposal or retirement of an item of furniture and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in consolidated income statement.

**Investment property**

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in the consolidated income statement in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the investment property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated income statement in the period in which the investment property is derecognised.

**11. Legal reserve**

In accordance with United Arab Emirates Federal Law No. (2) of 2015, the Group has established a legal reserve by appropriation of 10% of the profit of the Parent Company for each year until the reserve equals 50% of the paid-up share capital. This reserve is not available for distribution except as stipulated by the Law.

During the Annual General Assembly held on 30 April 2017, the shareholders approved to transfer legal reserve amounting to AED 18,729,615 to partially offset the accumulated losses. All regulatory approvals have been obtained during the current period.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**12. General reserve**

The Group is required to transfer 10% of the profit of the Parent Company for the year to a general reserve in accordance with its Articles of Association. The reserve is available for distribution by a resolution of the shareholders of the Group at an ordinary general meeting, on the recommendation of the Board of Directors.

During the Annual General Assembly held on 30 April 2017, the shareholders approved to transfer general reserve amounting to AED 18,729,615 to partially offset the accumulated losses. All regulatory approvals have been obtained during the current period.

**13. Wakala fees and Mudarib's share**

The Group manages the Takaful operations for the policyholders and charges 30% of the gross Takaful contributions net of fronting contribution as Wakala fees (30 September 2016: 25%). In addition, the Group charges (2%) on fronting contribution as Wakala fees. These Wakala fees rates were approved by the Group's Fatwa and Sharia'a Supervisory Board.

During the period, no Wakala fee was charged on gross Takaful contributions amounting to AED Nil (30 September 2016: AED 73,185,804) as the Group retained insignificant risk on such contributions and commission income from such business was significantly lower than the normal commission. Management, therefore, decided not to charge Wakala fee on these Takaful contributions.

The Group also manages the Policyholders' investment funds and is entitled to 25% (30 September 2016: 25%) of net investment income earned by the Policyholders' investment funds as the Mudarib's share. The Mudarib's share is AED 49,881 (30 September 2016: 579,015).

**19. Contingencies**

- (a) At reporting date, the Group has contingent liabilities in respect of bank and other guarantees arising in the ordinary course of business amounting AED 0.7 million (31 December 2016: AED 0.7 million).
- (b) The Group, in common with other insurance companies, is involved as a defendant in a number of legal cases with other insurance, reinsurance and customers. A provision is made in respect of each individual case where it is probable that the outcome would result in a loss to the Group in terms of an outflow of economic resources and a reliable estimate of the amount of outflow can be made. The expected outcome of the cases is dependent on future legal proceedings.

**20. Fair value of financial instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Differences can therefore arise between book value under historical cost method and fair value estimates.

**(a) Fair value of financial instruments measured at amortised cost**

The management considers that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.

**(b) Valuation techniques and assumptions applied for the purposes of measuring fair value**

Valuation of financial instruments recorded at fair value, is based on quoted market prices and other valuation techniques.

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**20. Fair value of financial instruments (continued)**

**(b) Valuation techniques and assumptions applied for the purposes of measuring fair value (continued)**

*Fair value of the financial assets that are measured at fair value on a recurring basis*

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

**21. Significant events**

An ex-management key member of the Group resigned on 10 July 2013. The Company entered into an agreement with the ex-managemenet key member on 9 July 2013 for the payment and/or transfer of certain assets and investments that were held by him or by entities controlled by him on trust and for the benefit of the Group. Given the delay in settlement and the level of uncertainty involved is considered as an exceptional outstanding matter, for which the chances of favourable outcome cannot be fully guaranteed. However, the Board of Directors is confident in the realization of a minimum of the carrying value of assets due from him and therefore no adjustments to the carrying value of the assets are required.

The settlement agreement referred to above contains the following 3 clauses:

- (a) The advance of AED 5,358,581 to invest in a real estate project in the Emirate of Ajman will be returned to the Company.
- (b) Transfer of shares of Al Salam Bank - Bahrain (currently held under the name of Leader Capital) together with the payment of any associated dividends due, to the Company's name.
- (c) Transfer of legal ownership of Al Salam Bank - Algeria shares held by an ex-management key member to the Company's name.

The Company has received an amount of AED 2.3 million during prior years against the advance mentioned in clause (a) above.

**Notes to the condensed consolidated financial statements

**22. Effect of changes in accounting policies and the application of the new insurance regulation**

*Restatement of comparative information for the period ended 30 September 2016*

During the period 2016, the Group adapted the directives of federal law number 6 of 2007, Consequently, the Group has changed its accounting policy for accounting for unearned contribution reserve switching from 1/8 method to 1/365 method. In addition, the Group has also reclassified its reserves out of additional reserve into multiple reserve captions within the condensed consolidated statement of financial position and the condensed consolidated income statement in order to align it to the requirements of the insurance authority.

All reserves have been computed by the internal actuary using statistical models and verified by the Company externally appointed actuary. Reserves booked by the group are identical to those determine by the external actuary.

Financial statements for the nine months' period ended 30 September 2016 were issued prior to the change in the aforementioned accounting policy. Therefore, the comparative information of these financial statements for the nine months' period ended 30 September 2016 has been restated to conform to the revised accounting policy.

The effect of the change in the accounting policy on the condensed consolidated income statement and related notes for the nine months' period ended 30 September 2016 are mentioned below:

	As previously reported AED	Adjustment AED	Restated AED
Net transfer to unearned contributions reserve	470,233	(3,499,203)	(3,028,971)
Net of outstanding claims	(917,446)	1,525,710	608,264
Additional reserve	(13,533,573)	13,533,573	-
Increase in mathematical reserve	-	(1,079,447)	(1,079,447)
Increase in incurred but not reported claims	-	(7,911,196)	(7,911,196)
Increase in allocated loss adjusted expense reserve	-	(112,776)	(112,776)

The change in the accounting policy resulted in a decrease in previously reported losses for the period ended 30 September 2016 by AED 2,456,661 and consequently increase basic earnings per share by AED 0.011.

**23. Comparative figures**

- Certain comparative figures have been reclassified to align the presentation of the interim financial information to the requirement of the insurance authority.
- As per Article (3) of Section 7 to the Financial Regulation of Takaful Insurance Companies, the shareholder account should bear all operational, administrative and general expenses for takaful insurance business. Accordingly, effective 1 January 2016, the policy acquisition cost has been classified in the condensed consolidated income statement as attributable to shareholders.

**Notes to the condensed consolidated financial statements  
for the period from 1 January 2017 to 30 September 2017 (continued)**

**24. Non-controlling interest**

During the period ended 30 September 2016, the ownership structure of Amity Health L.L.C. changed to being 90% owned by Nawat Investments L.L.C (subsidiary) and 10% owned by CEO of Amity Health L.L.C through capitalization of shareholders' funds. This resulted in a decrease in the non-controlling interest in the subsidiary by AED 7,294,000.

The movement on the non-controlling interest during the period is as follows:

	30 September 2016 AED'000 (Un-audited)
At beginning of the period	(8,441,330)
Loss for the period attributable to non-controlling interest	(300,071)
Introduction of new share capital in non-controlling interest	353,000
Net change in non-controlling interest due to change in ownership percentage	8,091,591
<b>At end of the period</b>	<b>(296,810)</b>

**25. Approval of the interim financial information**

The interim financial information were approved by the Board of Directors and authorised for issue on 12 November 2017.
