Report on Review of Interim Financial Information

The Board of Directors
Dubai Islamic Insurance & Reinsurance Co. (Aman) (PSC)
Dubai
United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of **Dubai Islamic Insurance & Reinsurance Co. (Aman) (PSC)** (the "Company") and its **Subsidiaries** (collectively the "Group") as of 30 September 2015 and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the period from 1 January 2015 to 30 September 2015. Management of the Group is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting' ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with IAS 34.

Emphasis of matter

We draw attention to note 21 to the condensed consolidated financial statements which explains that the Company entered into an agreement with the former Chief Executive Officer (CEO) on 9 July 2013 for the payment for and/or transfer of certain assets and investments that were held by him on trust and for the benefit of the Group. As of the date of this report, assets with a total carrying value of AED 19.92 million which are still in his name or owing from him, have not been yet transferred or paid to the Group. The Board of Directors is confident that this agreement will result in the realisation of a minimum of the carrying value of assets and therefore no adjustments to the carrying value of the assets are required.

Our conclusion is not qualified in respect of the above matter.

The property is subject to a facility from a local Islamic bank and is mortgaged as security against an Ijara payable. The valuation as of 31 December 2014, which conforms to international valuation standards, was arrived at by reference to market evidence of transaction prices for comparable properties, and was determined by the land department in Dubai. The Group's management reassessed this valuation internally during the nine months period ended 30 September 2015 and no material differences were noted.

The fair value of the Group's investment property is based on unobservable inputs i.e. level 3.

20. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Differences can therefore arise between book value under historical cost method and fair value estimates.

(a) Fair value of financial instruments measured at amortised cost

The management considers that the carrying amounts of financial assets and financial liabilities recognised in the condensed consolidated financial statements approximate their fair values.

(b) Valuation techniques and assumptions applied for the purposes of measuring fair value

Valuation of financial instruments recorded at fair value, is based on quoted market prices and other valuation techniques.

The fair values of financial assets and financial liabilities were determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets is determined with reference to quoted market prices; and
- the fair value of other financial assets and financial liabilities is determined in accordance with generally accepted pricing models based on the present value calculation of the expected future cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

**Notes to the condensed consolidated financial statements
for the period from 1 January 2015 to 30 September 2015 (continued)**

20. Fair value of financial instruments (continued)

(b) Valuation techniques and assumptions applied for the purposes of measuring fair value (continued)

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets	Fair value as at		Fair value hierarchy	Valuation techniques and key inputs	Significant unobservable input	Relationship of unobservable inputs to fair value

There were no transfers between each of the levels during the period. There are no financial liabilities which should be measured at fair value and accordingly no disclosure is made in the above table.

**Notes to the condensed consolidated financial statements
for the period from 1 January 2015 to 30 September 2015 (continued)****21. Significant transactions**

The former CEO of the Group resigned on 10 July 2013. The Company entered into an agreement with the former CEO on 9 July 2013 for the payment/transfer of certain assets and investments that were held by him or by entities controlled by him on trust and for the benefit of the Group. The Board of Directors is confident that this arrangement agreed will result in the realisation of a minimum of the carrying value of assets due from him or held by him on trust and for the benefit of the Group and therefore no adjustments to the carrying value of the assets are required.

The settlement agreement referred to above contains the following three clauses:

- (a) The advance of AED 5,358,581 to invest in a real estate project in the emirate of Ajman will be returned to the Company.
- (b) Transfer of shares of Al Salam Bank - Bahrain (currently held under the name of Leader Capital) together with the payment of any associated dividends due, to the Company's name.
- (c) Transfer of legal ownership of Al Salam Bank - Algeria shares held by the former CEO to the Company's name.
